

London Dermatology Centre

GP Online Education Event

Join Expert Dermatologist
Dr Chopra for a Masterclass on:

"Recent Advances in Vitiligo"

Vitiligo is a complex autoimmune skin condition with significant patient impact. This session will provide GPs with an up-to-date overview of:

- ✓ The latest understanding of disease mechanisms
- ✓ New and emerging treatment options
- ✓ Practical approaches to diagnosis and management in primary care
- ✓ When and how to refer patients for specialist care

- » Interactive Q&A included – bring your questions and cases.
- » CPD-focused, designed for busy GPs looking to enhance their dermatology knowledge.

Online Event

**Thursday 16th October
18:00 - 19:00**
